SUBJECT	Karl Liebknecht Transformer Plant, Berlin-Oberschoeneweide, Plans for New Installation and Economy Measures	DATE DISTR.	2 June 1953
		NO. OF PAGES	1
DATE OF INFO.	[REDACTED]	REQUIREMENT NO.	RD
PLACE ACQUIRED	[REDACTED]	REFERENCES	

25X1X

1. Plans and specifications for a 125 MVA transformer installation, which is scheduled to go into production at the end of April 1953, have been prepared at the Karl Liebknecht Transformer Plant in Berlin-Oberschoeneweide. Three of these transformers have been ordered; two are for the USSR and the third for domestic use.
2. The factory has been directed to economize to the extent of 25,000 kilograms of welding electrodes during the coming year. In order to accomplish this, discontinuous welded seams are to be used instead of continuous ones.
3. Economies in the use of brass, to the extent of 1,950 kilograms, have also been ordered, with a resultant change, as yet not known, in the high-frequency filter.
